

JCI Area Conferences & World Congress

Written by Benjamin Lee

People travel for different reasons. Many of them share the dream of travelling around the world. However, this dream may be hard to fulfil. Apart from financial and time constraints, one other factor that prevent people from travelling is the complexity of planning the trip.

Diversity is one of the characteristics of JCI. As JCI is spread over 100 countries, our members are provided with opportunities to meet other people around the world. In addition, members can learn the different cultures from the other countries. **Each year, there are four area conferences and the World Congress.** The conferences and congress in 2020 are summarised as follows.
