

Members' Lives - Fantastic Life in China

Written by Billy Ho

Do you have to work and study in Mainland China? Here are some practical tips for you to quickly adapt to the local environment there:

Tips #1 - Plan your working schedules ahead

First, please be careful on the day-offs as Hong Kong and Mainland China do not share the same holiday calendar. In China, the Central Government of the Republic of China would swap the weekends with the weekdays next to the official holidays.

Tips #2 - Bring your mobile phone at all times

Secondly, please be reminded that your mobile phone is everything in Mainland China. It is your identity card, your door keys, your wallet – every essential element related to your livelihood. Losing your phone means losing everything.

Tips #3 - Make some local friends

Thirdly, please be assured that you have made some local friends. The ways of handling problems are so different between Hong Kong and Mainland China. If there are any unexpected events, you may talk to your local friends for advice.

Besides, Hong Kong Economic and Trade Offices has established local branches in Mainland China including Chengdu, Guangdong, Shanghai and Wuhan. You may look for support and assistance from these local offices if appropriate.

Mainland China is a fantastic place to work and travel. I enjoyed my livelihood travelling from Hong Kong and Guangzhou. I hope that the above practical tips are useful for you!

The first Membership Affairs Area Meeting was held on 18 December 2019. All team members are committed to organising a series of fellowship gatherings and events for our members.

Vice President Billy Ho is one of the contestants of Werewolf Competition hosted by JCI Sha Tin. He met JCI Sha Tin 2015 President Senator Kelly Ngan, who was our 2019 National Assigned Executive Officer.

Members' Lives - Rewarding Career in China

Written by Steven Cheng

Thanks for Presidential Advisor 2015 President Senator Parco Wu's referral! I have become one of the members of JCI Island since 2018. I was elected as Treasurer for 2019 and then Vice President (Business Affairs and International Affairs) in 2020.

Having worked for an international CPA firm for years, I have decided to work for a major furniture manufacturer and exporter in China. **My career move has been inspired by the recent economy boom in the Greater China.** There has been a trend that foreign companies have shifted their operations to Mainland China due to cost efficiency. It is foreseeable that this creates a strong demand of talent acquisitions in all industries.

Steven Cheng joined JCI Island in 2018.

Networking is sometimes more important than knowledge

If you wish to work in Mainland China, you should strengthen your social network as soon as possible. Building up harmonious relationship with your business partners and colleagues could help you obtain vast amount of information useful for your personal and business development. Social networking could also help you adapt to the new work environment and see the true colors in Mainland China.

Do in Rome as the Romans do

The way you get along with your supervisor, the way you communicate with your coworkers and the way you interact with the local municipal governments are all culturally different from those in Hong Kong. To better understand the mainland affairs, you should not only learn and speak Mandarin but also interact with the local people. **These valuable experience makes my business career life more meaningful and rewarding.**

Vice President Steven Cheng enjoyed his rewarding business life in Mainland China.

Vice President Steven Cheng treasured every opportunity to interact with people from different cultures and background.

Members' Lives - Travel Adventure

Written by Alex Chow

My name is Chow Chung Pong, Alex, a Year 3 student of the Chinese University of Hong Kong. University is the best time of my life for acquiring overseas exposure. It is my pleasure that I have been selected to be **one of the exchange students to study at the University of Cambridge**.

In my university life, I have also traveled to many European countries such as Belgium, France and Switzerland to expand my horizons.

Why do I want to join JCI Island?

There are two main reasons that why I have joined JCI Island. The first reason is that I would like to learn how to cooperate with different people from different age groups and cultural background. This valuable exposure would be truly beneficial to my business career in future.

The second reason is that I would like to enhance my enabling skills including organising skills and communication skills. **JCI Island is a resourceful platform for me to learn new skills actively.**

My adventure to North Korea

In January 2020, I have been successfully selected to join my university's study tour, which provides me with opportunities to understand the history and background of North Korea - one of the most mysterious countries located in the northern half of Korean Peninsula.

Nowadays, South Korea is well known for K-Pop, Korean BBQ, plastic surgery and Samsung. In contrast, North Korea is one of the examples of autocratic dictatorship and closed economy in the world. Back to the end of the World War II, the surrender of Japan has led to the division of Korea at the 38th parallel.

To serve as a buffer zone between North Korea and South Korea, Korean Demilitarized Zone ("DMZ") has been established. The DMZ is a border barrier that divides the Korean Peninsula roughly in half. The DMZ is 250 kilometers long and 4 kilometers wide.

A photo was taken with Alex Chow's professor at the University of Cambridge.

The most mysterious place in the world

This time I have really experienced something totally different from my previous journeys. Upon arrival, all of us were told to hand in mobile phones and cameras in order to comply with their local immigration legislation. We were also instructed to strictly comply with their "List of Dos and Don'ts" during the study tour.

Massive military parade in North Korea.

My unforgettable visit to a local family

We played a visit to a local family there. We had pleasant discussions with the family members and have learnt a lot more about **their daily livelihood, their distinguished culture and their unique political system.**

Usually we would not be allowed to leave the hotel to walk around after the dinner. When I looked out the window, the city was like drawing a black curtain. These quiet nights have refreshed my mind from stress and have become one of my unforgettable moments in my life.

I would love to travel around the world and broaden my horizons in my whole life!

Harbin Ice and Snow World are Alex Chow's favorite travel destinations

Alex Chow enjoyed paragliding in Jungfrauoch of the Switzerland.
